Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1. An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2. A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3. A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4. A *"Yellow Section" or Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5. A *Statistical and Historical Story* of your city; plus miscellaneous other information.

"A Real Necessity in Every Office"—The City Directory

INTRODUCTION

R. L. POLK & CO., Inc., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1953 edition of Boyd's Greater Norristown Directory, which also includes Bridgeport and Jeffersonville.

Confidence in the growth of Norristown's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Norristown to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Norristown Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 9 to 21, on white paper presents lists of borough, county, state and federal officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 492, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Norristown and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, beginning opposite page 492 and separately paged from 1 to 52, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Norristown and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Norristown, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 493 to 555, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

The DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 557 to 742. In this section the numbered streets are arranged in numerical order followed by the named streets arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant owned homes, the designation of the population of each house, and the listing of telephone numbers.

THE NUMERICAL TELEPHONE DIRECTORY, on pink paper, is included in pages 743 to 785.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Norristown and vicinity.

The Norristown Directory Library

Through the courtesy of the publishers of the Norristown Directory a Directory Library is maintained in the offices of the Norristown Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Inc.
Publishers.

NORRISTOWN

"GATEWAY TO VALLEY FORGE"

Compiled and Edited by Norristown Chamber of Commerce

Statistical Review

(Statistics apply to Norristown proper, unless otherwise stated)

Form of Government: Borough, the largest independent Borough in the United States.

Population: (1950 Census) Norristown Borough 38,126; Bridgeport Borough 5,827; East Norriton Township 2,987; Plymouth Township 5,118; Upper Merion Township 6,404; West Norriton Township 4-879. Total Norristown and adjoining subdivisions 63,341; Native white 53,210; foreign born white, 6,730; Negro 3,315; other races 86. Among foreign born Italian predominates.

Area: 3.56 square miles (2,280 acres).

Altitude: 142.5 feet above sea level.

Climate: Mean annual temperature 53.5 degrees F.; normal annual precipitation, 44 inches.

Hotels: 4, with total of 346 rooms.

Dwelling Units: 1952, Norristown 9,308; Bridgeport, 1,356; East Norriton, 988; Plymouth, 1,910; Upper Merion 1,807; West Norriton, 1,594; Total 16,913.

Building Construction: Norristown area:

	Permits Issued	Value of Work
1941	764	$ 1,153,828
1950	1,688	12,656,516
1952	2,040	13,390,530

Postal Receipts: 1941, $266,682; 1950, $468,339; 1952, $492,931.81.

Active Relief Cases: Norristown area.
As of December, 1939, 795; December 1950, 603; December, 1952, 500.

Hospitals: 3, with total of 576 beds. State Hospital caring for 4,537 mental patients (July 1, 1953).

Taxes: Assessed valuation, real estate 1953, Norristown $24,650,000; Bridgeport $3,952,700. Tax rates (per $1,000 of assessed value):

	1953
Norristown Borough	$16.00
Norristown School District	30.50
Bridgeport Borough	20.00
Bridgeport School District	28.00
County	1.00
Institution District	.50
Total—Norristown	48.00
Total—Bridgeport	49.50

Bonded Debt Outstanding:

	July, 1953
Norristown Borough	$1,380,000
Norristown School District	922.000
Bridgeport Borough	58,000
Bridgeport School District	106,500

Financial Facts: 5 banks (Norristown and Bridgeport).

	Dec. 31, 1941	Dec., 1952
Deposits	$28,872,236	$73,605,607
Resources	35,541,176	84,646,674
Trust Funds	37,613,308	47,757,585

	Year 1941	Year 1952
Debits (checks cashed)	$156,534,726.45	$465,735,567

11 Building and Loan Associations in Norristown area have total assets (1952) of $12,997,279.

Telephones in Service: Norristown Exchange (May, 1953) 23,952 stations with 13,309 lines.

Automobile Registrations: 1952 Passenger, 14,991; Commercial, 2,398.

Railroads: (All electrified) Daily trains, Pennsylvania 27; Philadelphia & Western, 176; Reading, 84.

Buses: Reading Transportation Co., traversing Schuylkill Valley; Auch Interborough Transit Co. to Philadelphia; Schuylkill Valley Lines operates a comprehensive system covering entire Norristown suburban area; Lehigh Valley Transit to Allentown.

Highways: U. S. Route 422 (Benjamin Franklin Highway); U. S. 202, through North and South Route, intersects U. S. Routes 1, 30, 422, 309 and 611, all within 25 miles of Norristown; State Routes 23, 123, 73 and 363 traverse suburban communities. Pennsylvania Turnpike, Eastern Terminus at King of Prussia, (3 miles).

Airport: (Norristown Area) 3, privately owned.

Streets and Sewers: 66 miles of streets, with 59 miles paved; 12.1 miles storm sewers; 43 miles sanitary sewers. Sewage treatment plant has capacity of 6½ million gallons daily; average volume handled, 4,300,000 gallons daily.

Water Supply: Reservoir capacity, 20,000,000 gallons; daily average consumption, 6,000,000 gallons; water mains, 65 miles.

Fire Department: 17 paid men, with 5 stations and 22 pieces of motorized apparatus. Chief's car equipped with 2-way radio. Value of fire department property, not including buildings, $185,387. Average annual fire loss for 5-year period (1948 to 1952) Buildings, $14,682; Contents, $27,531. Total $42,213.

Police Department: 44 men with 1 station and 8 pieces of motor equipment, all equipped with 2-way radio.

Newspapers: 1, Daily.

Churches: (Norristown area) 64, representing 22 denominations.

Schools: Norristown, 9 public; including 1 senior high; 2 junior high; 6 elementary; total enrollment (June, 1953) 4,719 pupils. 3 parochial schools, with enrollment of 1,992; 3 private with total enrollment of 225 pupils. Bridgeport, 2 public including 1 high and 1 elementary; total enrollment, 700. 2 parochial, with enrollment of 514 pupils.

Public Library: Founded in 1796; approximately 17,530 volumes.

Parks: 1, of 90 acres. Public Square four-fifths of an acre in area.

Radio Station: 1, 500 watts, 1110 K. C.

Amusements: High School Stadium seats 7,500 persons; 3 high school auditoriums, with total seating capacity of 3,940 persons; 5 motion picture theatres, with total seating capacity of 6,100 persons. Golf courses (Norristown area) 2 private; 2 open to public.

Service Clubs: 10, including 8 men's and 2 women's.

Community Chest: Including 17 participating agencies.

Trade Area: Retail area of approximately 220 square miles, has a population of 160,000 persons. Of these, 100,000 live within 5 miles of municipal center.

RETAIL AND WHOLESALE TRADE (1948 Census)

	No. of Establishments	Sales or Receipts	Employees' Payroll
Retail Trade			
Norristown	532	$43,860,000	$4,764,000
Bridgeport	69	3,143,000	303,000
Wholesale Trade			
Norristown	52	16,432,000	1,209,000
Bridgeport	6	8,586,000	390,000
Service Establishments			
Norristown	207	3,108,000	979,000
Bridgeport	30	308,000	72,000

Industry: (Norristown area) Chief industry is manufacturing, well diversified. In 1951, 143 establishments employing 18,374 persons with an annual payroll of $65,284,800, and invested capital of $82,782,100 manufactured products valued at $290,263,000. Value added by manufacture, $129,773,600.

6 utilities employing 1,042 persons serve the area.

Principal manufactured products in the Norristown area: Agricultural implements, asbestos, beverages, boilers, bolts, boxes, (paper and wood); bread, bricks, castings, cement, chemicals, chutes, cloth, clothing, coke, concrete blocks, concrete pipe, confectionery, dessert specialties, drugs, electrical supplies, fabricated steel, fibre, fireproofed materials, flags, flavoring extracts, furniture, games, golf balls, hoppers, hosiery, ice cream, insulation, knit goods, knitting machinery, lime, macaroni, machinery, magnesia products, mattresses, medicines, milk, millwork, mine equipment, ornamental iron, oxygen, paper, paving materials, pig iron, plastics, plates (steel), powder (face), radiators, refractories, rivets, roofing materials, rubber tires and products, rugs, sand, screws, sheet metal products, shirts, slag products, sleeving, stacks, stone, tanks (steel and wood), tar products, tools, toys, tubing, water coolers, wire products, woodworking machinery, wood products, woolens and yarns.

In the entire county of Montgomery in 1951, 756 establishments employing 65,307 persons, with an annual payroll of $227,770,000 and invested capital of $224,860,000, manufactured products valued at $874,297,000. Value added by manufacture, $417,090,000.

THE COUNTY OF MONTGOMERY

Less than 300 years ago, the territory which now forms Montgomery County was the home of the Lenni Lenape, a branch of the Delaware Tribe of Indians. The first settlements of white men were made in 1682 by English and Welsh. In the early 1700's, the German immigration brought many settlers. Later came the Swedes and the Scotch-Irish.

The are 62 political sub-divisions in the County: 10 first-class townships, 28 second-class townships and 24 boroughs.

One-sixth of the entire population of the United States is contained within 100 miles of Norristown, the County Seat.

Montgomery is one of the six counties of the Third Class of Pennsylvania. In tax rates on real estate, Montgomery has a much lower rate than any other third class county. No other county in the state has a lower rate.

The assessed valuation of real estate in Montgomery County is $388,011,200. (1952).

Since 1937, the county has had no bonded indebtedness, with the result that no funds are required for payment of interest and principal on bonded debt. This policy has made possible the low tax rate which residents of the county now enjoy.

The county owns and maintains 82 miles of improved highways and 153 bridges. The Pennsylvania Department of Highways maintains 806 miles of main highways.

The first turnpike road built in Pennsylvania, the Lancaster Pike, runs through the county. Here, in 1792-93, the road-building method of the Scotchman, John L MacAddam, known as macadamizing, was used for the first time in America.

Industrially, Montgomery County has played an important role ever since the discovery of a great limestone belt running through it. As early as the 1690's, kilns were built to make lime, an industry still operating in the county. Later marble was quarried in large quantities along this limestone belt. For many years the marble quarries of the county were the principal ones in Pennsylvania.

Industrial development of the County has centered along the Schuylkill River. Steel mills and heavy manufacturing industries are located in Norristown, Bridgeport, Conshohocken, Royersford and Pottstown.

The Montgomery County prison is one of the few throughout the entire country approved by the Federal government for confinement of Federal prisoners.

Montgomery is the only County in the Commonwealth of Pennsylvania which has its own flag, authorized by enactment of the Legislature. The County colors, maroon and Quaker gray, were first unfurled September 10, 1934, on the 150th anniversary of the formation of the County.

Montgomery County is unique in that it combines large suburban areas with farming sections and localized industrial developments. In the suburban sections, municipal services provided are the equal of those in most large cities.

THE BOROUGH OF NORRISTOWN

The founding of Norristown and its history are coincident with that of the state of Pennsylvania and the nation. The names of some of its streets, families and surrounding communities indicate that the first settlers were Dutch, German, Swedish, Welsh and English, many of the last named nationality being Quakers. Descendants of some of the early settlers remain in this vicinity.

HISTORY

In 1616, Captain Hendrickson, sailing up the Delaware River, discovered a hitherto unknown river, which was given the name of Schuilen Kil, meaning "Hidden River". On the banks of this river, now the Schuylkill, lies Norristown.

The land embracing the present Norristown was conveyed to William Penn, on March 4, 1681, by Charles II in settlement of 16,000 pounds due the father of William Penn.

On October 2, 1704, William Penn gave to his son, William Jr., the tract known at that time as the "Manor of William Stadt", containing 7,482 acres, from which the whole of the present Borough of Norristown has been taken. Penn, Jr., just five days later, sold the tract to Isaac Norris and Col. William Trent for 850 pounds. On January 11, 1712, Col. Trent, the founder of Trenton, N. J., sold his holdings to Norris for 500 pounds.

In 1730, by decree of the Court of Quarter Sessions of Philadelphia County, the "Manor" was erected into a Township.

Isaac Norris, a member of the Society of Friends, was born in London, England, July 26, 1671. He immigrated to Jamaica in 1678 and came to Philadelphia in 1692. He became a member of the Assembly, a Justice of Philadelphia County and a member of the Governor's Council. At his death in June, 1735, he was Chief Justice of the Province. He never lived in Norristown or the immediate vicinity, and the naming of the settlement for him was undoubtedly due to his public activity and ownership of the land.

When Isaac Norris died, he left a large part of his estate to his son, Charles, and the latter, dying, left his estate to his wife. To settle the estate of Charles Norris, his widow, in 1771, offered at public auction 543 acres of what is now the center of Norristown, then known as the "Norris Plantation" or "Norrington". The price received was 4,270 pounds. Later it was sold for 4,600 pounds to John Bull, who on October 30, 1776, sold all his holdings, except about 55 acres, for 6,000 pounds to Doctor William Smith, Provost of the College and Academy of Philadelphia, which institution later became the University of Pennsylvania.

Originally, Norristown was in Philadelphia County. Montgomery County was erected September 10th, 1784.

The College and Academy of Philadelphia having acquired the Norris farm in 1776, the school and Dr. Smith, as the Revolution developed, were suspected of disloyalty, and the Pennsylvania Assembly revoked the school's charter, at the same time creating a new school called the University of Pennsylvania. All rights and property of the old school were transferred to the new University. Thus, when Montgomery County was erected, the University owned the region where it had been decided to locate the county seat, which was named The Town of Norris, in honor of Isaac Norris.

In 1791, the University sold its holdings bordering the Town of Norris, 484 acres, including Barbadoes Island in the River, to William Moore Smith, the son of Dr. Smith, and he disposed of it in 1802 to John Markley, who then began the development of the region.

On March 31st, 1812, the Town of Norris became incorporated as a Borough and changed its name to Norristown. The first election was held at the Court House and General Francis Swaine became the first Burgess and President of Council. Under the deed of 1784, ownership of the site of the court house and prison remained vested in the commissioners appointed to organize the county. March 23, 1835, Levi

Pawling gave a deed transferring ownership to the Burgess and the Town Council of Norristown. Neither the deed of 1835, nor the deed of 1784 covered the major part of the Public Square but only the prison and court house tract, the court house being then on the north corner of what is now the public square. No deed whatever is on record for the Public Square, but in the deeds covering the court house the land is described as bordering "a Public Square to remain open forever".

After the old court house was demolished, a controversy developed between the county commissioners and Town Council as to ownership of the Square. Seeing that under the deed of 1835 Council might claim not only the Square but also the court house, the county commissioners in 1856 obtained a deed from the trustees of the University of Pennsylvania making the commissioners the owners of the court house site. Town Council then took possession of the Square. No attempt has ever been made to obtain a decision of court as to whether the deed of 1856 legally superseded Levi Pawling's deed of 1835.

GROWTH

In 1784 the "Town of Norris" had an area of 28 acres, and less than 100 inhabitants. Besides the county buildings, it had two stores, three taverns, a schoolhouse and about 20 dwellings, most of them log houses.

When incorporated in 1812, Norristown's area was 520 acres, with about 500 inhabitants. By 1850 the population had increased to 6,024 and the houses to 1,000.

In 1853, new territory was added, enlarging the borough to its present area. Main Street, the principal business thoroughfare of the Borough, is a development from an Indian trail, which is now a portion of the County and State highway systems. The street was originally called "Egypt Road". and this name is still visible on the corners of some of the older Main Street buildings.

The growth of Norristown from the very beginning to the present day has shown no mushroom characteristics. This applies to its commercial, industrial and financial institutions. These have multiplied steadily, substantially and permanently. The increase in population has been steady from year to year, as is best indicated by the figures of successive Censuses:

1820	827	1890	19,791
1830	1,039	1900	22,265
1840	2,937	1910	27,875
1850	6,024	1920	32,319
1860	8,848	1930	35,853
1870	10,753	1940	38,181
1880	13,063	1950	38,126

The industries of Norristown are well balanced and diversified, so that there have been few, if any, periods of general unemployment.

The following Norristown business concerns have been in operation for more than 100 years:

Eagle Works. Established in 1839. Now the Hilyard Company.

Bank of Montgomery County. Chartered March 21, 1814. Stock books opened July 24, 1815. First Directors elected October 14, 1815. Was only bank in the County until 1857. Now the Montgomery National Bank.

Norristown Insurance Co. Incorporated March 11, 1834. Now the Norristown Water Company.

Norristown Gazette. Founded in 1799 by David Sower. First issue June 14, 1799. Name changed in 1800 to Norristown Herald. Now the Norristown Times-Herald.

James Lees and Sons Company. Established in 1846.

Grater-Bodey Company. Established in 1847.

The Norristown area is well supplied with most types of labor including workers of the semi-skilled and apprentice types and a considerable supply of hosiery workers, clothing workers, iron workers, skilled machine operators and especially labor in the building trades. Common labor in all classes is plentiful throughout the area.

POWER AND FUEL

"Electric light and power are available at unusually attractive rates. Norristown is situated near Plymouth Meeting sub-station, hub of a 6.9 million-kilowatt power pool, and one of the largest concentrations of electric power in the United States. Also at Norristown is the Barbadoes electric generating station with a capacity of 180,000 kilowatts.

"Gas is supplied through high pressure transmission mains. This manufactured gas is available at various specific pressures with rates comparing favorably with those of other cities in the East and with a particularly attractive rate for industrial uses."

Soft coal from the Pennsylvania, Maryland and West Virginia coal fields can be obtained in the Norristown area at rates which are particularly favorable. For hard coal, this section enjoys the benefits of the nearby Schuylkill anthracite region from which coal is shipped direct. The natural resources of the area are cement-bearing rock, trap rock and limestone.

SPECIAL NORRISTOWN FACTS

Norristown is the logical center of the agricultural and industrial life of the County, which embraces an area of 484 square miles, with a population in 1950 of 353,068.

It is the county seat of Montgomery County, which pays all of its expenses of maintenance and operation out of current income.

Norristown has unequalled fire protection, its insurance rating being the best in the country.

The soundness of its financial institutions is indicated by the fact that Norristown has never had a bank failure.

With an assessed valuation of $24,650,000 and a tax rate of $16.00 for $1,000 for municipal purposes, Norristown's tax duplicate for 1953, will be $394,400. Based on its population of 38,126, this represents a per capita tax levy of $10.34. Although qualified for charter as a City, Norristown remains a Borough, the largest independent Borough in the United States.

In its principal park, "Elmwood"—recently increased from 67 to 90 acres—the municipality maintains a zoological garden, tennis courts, baseball diamonds, band shell, pools and other recreational facilities.

Travel time from Norristown: Washington, 3½ hours; New York City or the Pocono Mountains, 2½ hours; Atlantic City, 2 hours; Philadelphia, 30 minutes; Valley Forge, 15 minutes.

The following institutions of higher learning are all within 12 miles of Norristown: Bryn Mawr College, at Bryn Mawr; Haverford College, at Haverford; Ursinus College, at Collegeville; Beaver College, at Jenkintown; Villa Nova College, at Villa Nova; Rosemont College, at Rosemont.

POINTS OF INTEREST

While no battles were fought on the present site of Norristown, both contending forces of the Revolution marched over its soil. Memorials of glory are the surrounding heritage of Norristown. In one direction is Independence Hall; in another Valley Forge. Washington, Lafayette, the Muhlenbergs, Anthony Wayne, Rittenhouse Audubon, Lydia Darrah, Hancock, Hartranft, Hovenden—these are honored names inseparably associated with the environment.

VALLEY FORGE

Norristown is truly the "Gateway to Valley Forge". This historic shrine, seven miles west of Norristown, is notable as the site of the encampment of General George Washington and his Continental Army from December 19, 1777, to June 19, 1778. Owned and administered by the Commonwealth of Pennsylvania through the Valley Forge Park Commission, the reservation now embraces 2,030 acres.

The Valley Forge Park Commission was created by Act of the General Assembly "for the purpose of perpetuating and preserving the site, to restore it as nearly as possible to its original condition as a military camp, and maintain it forever as a public place or park".

The encampment area received its name from an iron mill or forge along the Valley Creek, built not later than 1751. The plant was not a forge in the sense of a smithy, but a mill in which, by the old-time refining process, pig iron was changed to wrought iron and shaped for varied commercial uses. The forge site lies in the ravine between Mt. Joy and Mt. Misery. Known at first as the Mt. Joy Forge, it became designated as the Valley Forge before the Revolution, and the nearby village and adjacent area continue to bear this name.

The original forge, then an important munitions plant for the American fighting forces, was burned about September 23, 1777 by British mercenaries, the Hessian soldiers under the Hessian General Knyphausen, during a raid nearly three months before the Americans under Washington encamped there. During this raid, the British Army under General Howe camped for three days on the exact site at Valley Forge later to be the scene of Washington's winter encampment.

The ruins of the original Valley Forge iron mill were found under twelve feet of creek silt in 1929 by the Park Superintendent. The larger sections of the forge and bloomery are still in their original position, just as they were left when fired by the British. The Commission plans to restore the old forge plant, so that present and future generations may see the crude methods by which the early Pennsylvania "ironmasters" produced iron for commercial uses.

The Park area contains the original headquarters residence of Washington; his carriage house—now a museum of Valley Forge relics; a school house built in 1705 by Letitia Penn Aubrey, daughter of William Penn; the quarters of General James M. Varnum; the Commissary headquarters; three original forts, and several miles of the original entrenchments, as well as redoubts, redans and lunettes and the Grand Parade, where von Steuben drilled the tattered, unskilled soldiers.

Also of interest to visitors are many other Revolutionary relics and splendid picnic grounds with fireplaces and tourist camps. Here, too, is the famous Washington Memorial Chapel and its adjoining museum of American history. Guide service is available and uniformed guards are in attendance. Even under recent wartime restrictions, more than 750,000 visitors, were attracted annually to Valley Forge. In normal times the number is more than 2,000,000. Half of this number come during May, when the flowering dogwood trees are in bloom. Of this remarkable display, Harry Emerson Wildes, in his book "Valley Forge", says: "Each year in May, on Dogwood Sunday, the display of blooming trees now holds the interest of a nation. No other floral offering, not even the magnificent Japanese cherry blossoms of the Washington Tidal Basin, draws so large a throng".

It is most appropriate that Adolf Muller, an immigrant to America from Germany's Black Forest, who, during his residence in Norristown, achieved national prominence by his successful effort to popularize the distinctly American White-flowered Dogwood, is buried at Valley Forge.

Within a few miles of Valley Forge Park stands Valley Forge General Hospital, dedicated to restoring the health and physique of casualties of World War II and Korean veterans—a sobering reminder of the connection between the Valley Forge of Revolutionary times and the America of today.

AUDUBON

Home of John Penn, grandson of William Penn, and the last Colonial Governor of Pennsylvania. This community located five miles west of Norristown, was also the first American home of John James Audubon, famed ornithologist.

AUGUSTUS LUTHERAN CHURCH

The oldest Lutheran Church building in America. Built in 1743 by Henry Melchoir Muhlenberg, this church is just off Ridge Pike, at Trappe, nine miles west of Norristown. General Peter Muhlenberg, Colonial soldier and statesman is buried in the historic church yard.

GENERAL ANDREW PORTER'S HOUSE

Built in 1787, this Norristown home was the birthplace of his three sons, David R. Porter, later Governor of Pennsylvania, George B. Porter, later Governor of Michigan and James U. Porter, who became Secretary of War under President Tyler. The stone building, still standing, is now the Fornance homestead and is located off Airy Street near the West Borough line.

MONTGOMERY COUNTY HISTORICAL SOCIETY

Historical Hall, 18 East Penn Street, Norristown, houses interesting exhibits and is free to the public.

OLD CHRIST SWEDE'S CHURCH

The present edifice was built early in the 19th Century. The Church was organized over 200 years ago.

RITTENHOUSE HOME

A few miles north of Norristown on the Germantown Pike, east of Fairview Village, is the site of the former home of David Rittenhouse, celebrated astronomer and mathematician of the 18th century.

UNDERGROUND SLAVE STATION

Barn on the Hovenden property, Germantown and Butler Pikes, Plymouth Meeting, east of Norristown, covers what was once an underground slave station.

SWEDE'S FORD

Important crossing of Schuylkill River in Colonial times. This crossing was used by the Continental Army in December, 1777, on its way to the winter encampment at Valley Forge.

PUBLIC SQUARE

This plot of ground dedicated to the Town of Norris by the University of Pennsylvania, to be kept open forever as a public park. In this Square is one of the stones erected by David Rittenhouse, Colonial astronomer, to mark the true north and south line, which line was used to determine the boundary between Pennsylvania and Maryland.

PERSONALITIES

WINFIELD SCOTT HANCOCK—"Hancock the Superb"—a major-general of the Civil War, was born in Norristown. General Hancock was a candidate for the Presidency in 1880, but was defeated by James A. Garfield. His burial place is not far from the place where he was born.

JOHN F. HARTRANFT—another son of Norristown, was chosen to lead the volunteers from his native town in the Civil War. He passed from one rank to another until he became a major-general. Later, he served six years as Governor of the State.

SURGEON GENERAL LOUIS W. READ—Civil War surgeon. His home still stands on East Main Street, below Green. General Read saved the life of General Hancock, wounded at Gettysburg, by extracting the bullet and part of the pommel of the saddle which had been carried into the wound.

U. S. POSTAL INFORMATION

POSTAGE RATES AND CLASSIFICATION

For information regarding classification, postage rates, and mailability of domestic mail of all classes, entry and mailing of publications as second-class matter, metered and permit mail, bulk rate mailings of third-class matter, Business Reply Cards and Envelopes, apply at your local post office.

DOMESTIC POSTAL RATES

First-Class

LETTERS: 3 cents for each ounce or fraction of an ounce. (Local delivery same rate.)

POST CARDS or POSTAL CARDS: 2 cents each within prescribed sizes.

BUSINESS REPLY CARDS: 3 cents each; Air Mail, 5 cents each.

BUSINESS REPLY ENVELOPES: Business reply envelopes 1 cent in addition to regular postage. Apply at Post Office for Permit.

Second-Class

(Rates Effective April 1, 1952)

NEWSPAPERS AND PERIODICALS (Transient rate): 2 cents for the first 2 ounces, and 1 cent for each additional 2 ounces or fourth class rate, whichever is lower.

Third-Class

(Limit 8 ounces)—On circulars and other miscellaneous printed matter, also on merchandise, 2c for the first 2 ounces or fraction, plus 1c for each additional ounce or fraction.

On books and catalogs having 24 or more pages; also, seeds, cuttings, bulbs, roots, scions, and plants—2 cents for first 2 ounces and 1½ cents for each additional 2 ounces.

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States, including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

1-52

HOW TO USE YOUR CITY DIRECTORY

The major departments in the Directory are arranged in the following order for ready reference:

1. **INDEX TO ADVERTISERS**
2. **INTRODUCTION AND MISCELLANEOUS**
3. **ALPHABETICAL SECTION**
4. **CLASSIFIED BUYERS' GUIDE**
5. **CLASSIFIED BUSINESS SECTION**
6. **HOUSEHOLDERS' AND STREET GUIDE**

Particular attention is directed to four symbols as being important contributing factors in supplying complete information. They appear as follows: ALPHABETICAL SECTION, "h"—Householder, "r"—Resident, HOUSEHOLDERS' AND STREET GUIDE, "🔔"—Telephone Subscriber, "◎"—Homeowner.

The City Directory Will Answer Your Everyday Questions . . .

Telephone NOrristown 8-8600

"Not an OLD but a SAFE place in which to keep money"

Although the Bridgeport National Bank is the youngest bank in the Norristown clearing house, nevertheless, it is one of the most vigorous banks in the entire southeastern section of Pennsylvania, being not only a member of the Federal Reserve but also a member of the Federal Deposit Insurance Corporation. The foregoing facts combine to make — not a great BIG bank — but a GREAT little bank.

These men direct the financial policy of the bank:

Out of Sight • Out of Mind • Out of Business

★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages

WHY A BUYERS' GUIDE?

★It is customary to include a Buyers' Guide in the City Directory because . . .

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

—*means* TELEPHONE SUBSCRIBER

—*means* HOME OWNER

THE HOME-OWNER SYMBOL, in the Householders Guide of the New City Directory, designates Home-owners on every Street and Avenue in the city. As a means of Checking Credits, conducting Direct Mail Campaigns, Sales Planning, Prospect Lists, etc., it is of invaluable assistance.

THE BELL SYMBOL designates Telephone Subscribers and appears in the Householders' Guide following street numbers.

NEW FEATURES and **DEPARTMENTS** are constantly being adopted in our efforts to improve and add to the recognized value of the City Directory service demanded by the public.

"r"— RESIDENT
"h"— HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

FACTS!!

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted — "User Circulation."

To be exact by actual survey in twenty-four average American cities, by actual count, each City Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore —

1000 x $3\frac{1}{2}$ x 305 = **1,067,500**

Consultations or "User Circulation"

The City Directory offers the most Specific Point of Contact Advertising Known

City Directory Dont's

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

* * *

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

* * *

DON'T look mad when a customer asks to look at your Directory.

* * *

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

* * *

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

* * *

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

* * *

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.

BOYD'S GREATER NORRISTOWN

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

INCLUDING BRIDGEPORT AND JEFFERSONVILLE

1953

Copyright, 1953, by R. L. Polk & Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list.

Places of business are indicated by bold face numbers and the profession or business of individuals or firms is given only at their respective place of business.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

* Denotes streets irregularly numbered.

Figures following names denote number of persons living at that number.

Telephone numbers, as supplied to us on our canvass, are shown opposite names. (Exchange is NOrristown unless otherwise noted.)

† This symbol placed before a listing denotes inability to get complete information by personal call, telephone or mail.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers and have no other significance.)

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit. sending bills, collecting money—

Consult Your Directory

Accurate Information is worth all it costs

R. L. POLK & CO.

INCORPORATED

The
CITY DIRECTORY

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Typical Questions

Your City Directory Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live?
Does he own his home or rent?
Has he a telephone?
Who are his neighbors?
What does he do for a living?
Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?
Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
What are the latest population figures?
What is the latest statistical and general civic information?
What are the leading industries and activities of the city?
What are the names and locations of the schools?
What are the churches and where located?
Who are the pastors of the churches?
What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood?
Is it a "home-owners" section?
What is the nearest street corner?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the public and office buildings?
If it is a business location, what business?
If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
What is the correct name and address?
Is it a Proprietorship, Partnership or Corporation?
Who are the partners, owners, or officers?
Who else in same or similar lines?

Your City Directory has
HUNDREDS OF USES AND APPLICATIONS

BUYING

Learning new sources of supply.
Keeping up with known sources of supply.
Checking on the record of firms from which you buy as to dependability, stability, etc.

SELLING *(Including market analysis and sales promotion)*

Locating new markets.
Maintaining up-to-date mailing lists.
Analyzing the buying power of a community or street.
Routing salesmen to avoid lost motion in reaching prospects.
Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.
Identifying names and titles of officials, for use of salesmen.

CREDIT REFERENCE *(and Collections)*

Running down delinquent debtors.
Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether owner or renter, etc.
Identifying persons of same or similar names.
Investigating cases in welfare, charitable, social service and legal work.

DELIVERY *Communication, Mailing, Etc.*

Routing deliveries.
Reducing dead letters and insuring more complete delivery of mail.
Effecting delivery of messages and parcels erroneously or defectively addressed.
Correcting names and titles.
